Benefits of eProcure™

- Automates the entire procurement lifecycle
- Integrates securely and seamlessly with back-office and third party systems, such as SAP and Ariba
- Reduces costs and converts spend to Tier 1 Diverse

Features of eProcure™

Sourcing

- Users select from only verified and preferred suppliers
- Best value pricing through competitive bidding events (e-Auction, eRFx, and e-bids)
- Programmed to follow Strategic Sourcing Best Practices

Procure-to-Pay

- Reduced lag time for all approvals
- Elimination of manual processing bottlenecks
- Notifications via SMS (text messaging) and email
- Faster document turn-around (no printing/signing/scanning)

Contract and Supplier Management

- Preferred and high-value suppliers managed and vetted
- Reduced Tail Spend (purchases that are not strategically managed)
- Delivery of real-time supplier performance via premium scorecards
- Contracts centralized into one repository
- Greater compliance control & Decreased potential risk

Spend Analysis and Tracking

- Data extraction from any source system
- Real-time spend transparency by category, suppliers, buying entity, and other relevant qualifiers
- Cost savings projections and recommendations
- Dashboard configured based on user preference
