

DRIVING INNOVATION IN PROCUREMENT

## Technology Concepts Group International

An asset, expense, and procurement management firm providing:

- ◆ Holistic expense management
- ◆ Technology-driven strategies
- ◆ Supply base rationalization
- ◆ Digital transformation of manual procurement processes
- ◆ Reductions in Tail Spend waste
- ◆ IT software and hardware (VAR)
- ◆ Software license lifecycle management
- ◆ Tier 1 Diverse spend

## TCGi Solutions Include:

**Tail Spend Management** - Provides transparency and control of the low-dollar purchases that are not strategically managed; proactively manage Tail Spend on an on-going basis

**Hardware & Software Reseller (VAR)** - Our BigVar division has forged strategic alliances with key OEM partners in order to afford our customers the highest-quality products and services available. On the hardware side we partner with Dell, Cisco, Hitachi, Lenovo and more. We provide equipment leasing and financing when needed.

**Data Security & Network Solutions** - State-of-the-art cybersecurity architecture and solutions for databases, cloud, web, networks and servers. We partner with Check Point, a provider of cyber security solutions to protect customers from cyber-attacks. Other security software relationships include CloudKnox, an identity privilege management platform, Splunk, Symantec, VMware and Sophos.

**Managed Procurement Service (MPS)** - Streamlined set of processes that simplify the acquisition of products and services while lowering costs.

**Managed Printer Services** - P-SAT, the industry's 1st printer automation tool, can increase your company's print fleet efficiency while lowering print cost.

**IT Asset Management & SAM** - Tracks IT assets and manages tasks such as License and Maintenance Renewals plus End-of-Life Disposition.

Certified MBE and WBE
